Exam Form Management

Exam Form Generation

Generation of examination forms

- The generation of examination forms can be done with respect to the schedule defined for the given course part/term.
- The forms will be generated based on the admission data for the fresh students and result data for repeater students.

Suggestions:

- The examination forms for repeaters shall be generated once the modifications and corrections are over in result. (Currently for repeaters, exam forms are generated from back end, it shall have appropriate interface for summer 2010 events)
- Generation of examination forms is a server resource consuming process. Preferably, the exam forms generation process should be carried out off the office hours – Early morning or late evening so that the internet traffic on the server is low & the server can allocate the resources to the process properly.
- Please check the correctness of the examination forms for all (each and every) details against the admission/result data for at least one college. The random samples can be checked for other colleges also.
